

GENERAL INQUIRY

[Summary](#)

CER ✓

Basic Tutorial

- Determine how the **sugar** in the water affects the **petal loss**.
- Determine how the **salt** in the water affects the **petal loss**.
- Determine how the **red dye** in the water affects the redness of the **petals**

[Summary](#)

CER ✓

Advanced Tutorial

- Determine how the **size** of the sled affects the total **distance** traveled from the end of the ramp.
- Determine how the **height** of the tower affects the total **distance** traveled from the end of the ramp.
- Determine how the **roughness** of the ramp affects the **time** to end of the ramp.

PHYSICAL SCIENCE

Georgia Standards

[Summary](#)

Phase Change

- Determine how the amount of **heat** affects the **boiling point** of water.
- Determine how the **size** of the container affects the **time** the water takes to boil.
- Determine how the **amount of ice** affects the **boiling point** of water.
- Determine how the **amount of ice** affects the **melting point** of ice.

S8P1
SPS5

[Summary](#)

Chemical Reactions

- Determine how the **substance** added to vinegar impacts the **temperature change**.
- Determine how the **amount** of baking soda impacts the **temperature change**.
- Determine how the **amount** of vinegar impacts the **temperature change**

SPS3

<p>Summary</p>		<p>Velocity: Free Fall</p> <ul style="list-style-type: none"> • Determine how the height of the drop affects the final speed of the ball. • Determine how the height of the drop affects the time to drop. • Determine how the mass of the ball affects the time to drop. 	<p>S8P3 SPS8</p>
<p>Summary</p>		<p>Velocity & Air Resistance</p> <ul style="list-style-type: none"> • Determine how the height of the drop affects the velocity of the ball before it hits the ground. • Determine how the mass of the ball affects the acceleration before the ball hits the ground. • Determine how the volume of the ball affects the force as the ball hits the ground. • Determine how the volume of the ball affects the time before the ball hits the ground. 	<p>S8P3 SPS8</p>
<p>Summary</p>		<p>Energy: Free Fall</p> <ul style="list-style-type: none"> • Determine how the height of the drop affects the kinetic energy as the ball hits the ground. • Middle School: Determine how the height of the drop affects the potential energy before the ball is dropped. • High School: Determine how the mass of the ball affects the mechanical energy as the ball hits the ground. 	<p>S8P2 SPS8</p>
<p>Summary</p>		<p>Energy & Air Resistance</p> <ul style="list-style-type: none"> • Determine how the height of the drop affects the potential energy before the ball is dropped. • Determine how the mass of the ball affects the mechanical energy as the ball hits the ground. • Determine how the volume of the ball affects the thermal energy of the system. • Determine how the volume of the ball affects the kinetic energy as the ball hits the ground. 	<p>S8P2 SPS8</p>
<p>Summary</p>	 <p>CER ✓</p>	<p>Density</p> <ul style="list-style-type: none"> • Determine how the type of liquid affects the density of the liquid. • Determine how the shape of the container affects the density of the liquid. • Determine how the amount of liquid affects the density of the liquid. 	<p>S8P1</p>

<p>Summary</p>		<p>Gravity & Mass: Introduction</p> <ul style="list-style-type: none"> • Determine how the planetary body we are orbiting affects the weight of the gold. • Determine how the planetary body we are orbiting affects the mass of the gold. • Determine how the amount of gold affects the weight of the gold. 	<p>S8P5 SPS8</p>
<p>Summary</p>		<p>Gravity & Orbit Distance</p> <ul style="list-style-type: none"> • Determine how the amount of gold affects the force of gravity on gold. • Middle School: Determine how the gold's distance from the planet's center affects the force of gravity on gold. • High School: Determine how the planet's mass affects the force of gravity on gold. 	<p>S8P5 SPS8</p>
<p>Summary</p>		<p>Gravity & Forces</p> <ul style="list-style-type: none"> • Determine how the orbital distance affects the gold's mass. • Determine how the planet's mass affects the force of gravity. • Determine how the orbital distance affects the force of gravity. 	<p>S8P5 SPS8</p>

<p>Summary</p>		<p>Cells: Plant - Energy & Storage</p> <ul style="list-style-type: none"> • The cell does not have enough storage space. • The cell is not producing enough food. Investigate how you can fix this problem. • The cell is low on energy. Investigate how you can increase its energy. 	<p>S7L2</p>
<p>Summary</p>		<p>Natural Selection</p> <ul style="list-style-type: none"> • Investigate the optimal amount of foliage for the green, long furred slinquettes' population. • Investigate the optimal amount of foliage for the red, short, furred slinquettes' population. • Investigate the optimal temperature for the green short furred slinquettes' population. • Investigate the optimal temperature for the red, long furred slinquettes' population. 	<p>S7L4</p>
<p>Summary</p>		<p>Diversity of Traits</p> <ul style="list-style-type: none"> • Investigate how foliage influences the presence of red, short furred living in the environments. • Investigate how fur color mutation influences the final number of green, short furred living in the environments. • Investigate how a fur length mutation influences the presence of red, long furred living in the environments. • Investigate how temperature influences the final number of green, long furred living in the environments. 	<p>S7L3</p>
<p>Summary</p>		<p>Genetics</p> <ul style="list-style-type: none"> • Determine how the Mother's F alleles impact the chance of producing the offspring with red fur. • Determine how the Mother's L alleles impact the chance of producing the offspring with short fur. • Determine how the Mother's H alleles impact the chance of producing the offspring with horns. 	<p>S7L3</p>

Predation: Introduction

S7L1

[Summary](#)

- Investigate how [seal birthrate](#) influences the [maximum shark population](#).
- Investigate how [shark birthrate](#) influences the [maximum seal population](#).
- Investigate how a [starting seal population](#) influences the [length of the predation cycle](#).
- Investigate how a [starting shark population](#) influences the [length of the predation cycle](#).

Predation: Advanced

S7L1

[Summary](#)

- Investigate how an [initial seal population](#) influences the [duration of predation cycles](#).
- Investigate how [seal birthrate](#) influences the [final seal population](#).
- Investigate how [shark birthrate](#) influences the [duration of predation cycles](#).

EARTH SCIENCE

Lunar Phases

S6E2

[Summary](#)

CER ✓

- Determine how the [position of the moon](#) impacts the [percent of the Moon facing the Sun](#).
- Determine how the [location of the observer](#) impacts the [percent of the Moon lit up](#).
- Determine how the [orbital speed of the moon](#) impacts the [duration of lunar orbit](#).

Lunar Phases: Advanced

S6E2

[Summary](#)

- Determine how the [percent of the Moon lit up](#) changes.
- Determine how the [duration of lunar orbit](#) changes.
- Determine how the [percent of the Moon facing the Sun](#) changes.

Eclipses: Introduction

S6E2

[Summary](#)

- Determine how the [phase of the Moon](#) affects the [possibility](#) of viewing a [lunar eclipse](#)
- Determine how the [phase of the Moon](#) affects the [possibility](#) of viewing a [solar eclipse](#)
- Determine if the [orbital tilt of the moon](#) impacts the average number of [lunar eclipses](#).

- Determine how the **time of year** impacts the average number of **solar eclipses**.

[Summary](#)

Eclipses: Advanced

S6E2

- Determine how the average number of **lunar eclipses** changes.
- Determine how the average number of **solar eclipses** changes.
- Determine how the possibility of viewing a **lunar eclipse** changes.
- Determine how the possibility of viewing a **solar eclipse** changes.

[Summary](#)

Plate Tectonics: Convergent Plates- Introduction

S6E5

- Determine how the **plate type** affects the **formation type**.
- Investigate how the **duration** of plate movement impacts the **formation heights** at the convergent boundary.
- Investigate how **plate size** impacts the **number of earthquakes** at the convergent boundary.

[Summary](#)

Plate Tectonics: Convergent Plates- Advanced

S6E5

- Investigate what affects the **formation type** at the convergent boundary.
- Determine the impact of the **duration** of plate movement.
- Investigate what affects the **number of earthquakes**.

[Summary](#)

Plate Tectonics: Divergent Plates

S6E5

- Investigate what affects the **formation** observed at the divergent boundary.
- Middle School: Investigate what affects the **age of crust**.
- High School: Investigate what affects the **spreading rate** at the divergent boundary.

[Summary](#)

Seasons: Introduction

S6E2

- Determine how the **tilt of the Earth** affects the average **temperature**.
- Determine how the **location of Earth in orbit** affects the **distance** of Earth from the Sun.

- Determine how the **location of the observer** on Earth affects the **angle of sunlight**.

[Summary](#)

Seasons: Advanced

S6E2

- Determine how the **angle of sunlight** changes.
- Determine how the average **temperature** changes.
- Determine how the **distance** of Earth from the Sun changes.

[Summary](#)

Seasons: Earth has NO Tilt! Introduction

S6E1

- If the Earth has no tilt, determine how the **location of Earth in orbit** affects the **average temperature**.
- If the Earth has no tilt, determine how the **location of Earth in orbit** affects the **distance** of Earth from the Sun.
- If the Earth has no tilt, determine how the **location of the observer** affects the **angle of sunlight**.

[Summary](#)

Seasons: Earth has NO Tilt! Advanced

S6E1

- If the Earth has no tilt, determine how the **angle of sunlight** can change.
- If the Earth has no tilt, determine how **the average temperature** can change.
- If the Earth has no tilt, determine how the **distance** of Earth from the Sun can change.
